	This is to certify that I have examined the foregoing application, and do hereby	prent the same, subject to the		
follo	wing limitations and conditions:	State ago same, subject to the		
This permit to change the point of diversion of the waters of an underground source as heretofore granted under Permit 33140 is issued subject to the terms and conditions imposed in said Permit 33140 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. No perforations shall be put in the production casing from ground level to 100 feet. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. The number of acres to be irrigated shall be limited to 20 acres.				
The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed a cubic feet per second, but not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources,
